StarLine® i95 LUX

RELIABLE IMMOBILIZER

NanoEnergy

NanoEnergy

StarLine patented progressive technologies claim economic energy consumption, saving sufficient battery power in operating mode up to 150 days

HANDS FREE

Hands free

Your hands are free due to the unique patented algorithm of door locks control with smart calculation of distance to the wireless tag

**HOOD
PROTECTION**

Hood protection

Automatic hood lock at the car owner's absence provides reliable protection of underhood space and wiring

WATERPROOF

Waterproof wireless tag

Original waterproof construction of the tag case guarantees its work even after contact with water
